

FREE GIFT: UNIVERSAL SALES SCRIPT PACK FOR ANY BUSINESS THAT GETS CALLS OR LEADS

The Business Call & Lead Conversion Script Pack

A ready-to-use script toolkit to respond faster, qualify leads, book demos or appointments, recover missed calls, collect feedback, and follow up professionally.

1	2	3	4
Capture more leads	Book more conversations	Recover missed calls	Improve experience
Ask the right questions before the lead goes cold	Move interested people toward demo, quote, visit, or callback	Turn unanswered calls into follow-up opportunities	Use feedback, reminders, and handoff scripts professionally

Works for: real estate, education, clinics, agencies, local services, salons, fitness, finance, home services, consulting, SaaS, coaching and more

Lead asks / calls	Respond fast	Qualify need	Book next step	Follow up
-------------------	--------------	--------------	----------------	-----------

How to Use This Free Gift

Simple promise

Use these scripts when a lead comes from social media, website forms, ads, WhatsApp, phone calls, or referrals. The goal is to convert interest into a clear next step without sounding pushy.

Step 1: Identify

Where did the lead come from and what problem are they trying to solve?

Step 2: Qualify

Ask 3-5 simple questions: need, timing, location, budget/fit, decision-maker.

Step 3: Move forward

Offer a demo, consultation, quote, visit, callback, or detailed information.

Universal lead qualification questions

- What made you reach out today?
- Are you looking for information, pricing, booking, or a quick demo?
- What problem are you trying to solve right now?
- When would you like to get this done?
- Who else is involved in the decision?
- What is the best phone number and email for follow-up?

Golden rule

Do not over-explain at the start. First understand the person, then guide them to the right next step.

Part 1: First Response & Lead Capture Scripts

1. Social Media Lead Response

SCRIPT: Hi [Name], thanks for showing interest. I can help you with this. May I quickly understand what you are looking for - information, pricing, a demo, or a callback?

WHEN TO USE: When someone comments, sends DM, fills a form, or asks for details.

BEST OUTCOME: Start the conversation and identify intent.

2. Website/Form Lead Response

SCRIPT: Hi [Name], thank you for submitting your details. I saw your request and wanted to check what you need help with first, so I can guide you correctly.

WHEN TO USE: When a lead comes from landing page, form, ad, or lead magnet.

BEST OUTCOME: Make the lead feel noticed and personally handled.

3. Missed-Call Callback

SCRIPT: Hi, this is [Name] from [Company]. I noticed we missed your call. I wanted to call back quickly so your query does not get delayed. How can I help?

WHEN TO USE: When a call was missed or unanswered.

BEST OUTCOME: Recover the opportunity before the lead contacts someone else.

Part 2: Conversion & Booking Scripts

4. Demo Booking Script

SCRIPT: Based on what you shared, the best next step is a quick demo. It will show you exactly how this can work for your business. Would today or tomorrow work better?

WHEN TO USE: When the lead has shown interest but has not booked yet.

BEST OUTCOME: Move the conversation toward a calendar slot.

5. Price Inquiry Script

SCRIPT: I can share pricing, but first I want to make sure I suggest the right option. Are you looking for basic support, automation, follow-up, or a complete workflow?

WHEN TO USE: When someone asks only, "What is the price?"

BEST OUTCOME: Avoid price-only comparison and understand the requirement.

6. Objection Handling Script

SCRIPT: That makes sense. Many businesses feel the same initially. Usually the value comes from faster response, fewer missed leads, and less manual follow-up. Would you like to see a 2-minute example first?

WHEN TO USE: When the lead says it is expensive, not needed, or they already have staff.

BEST OUTCOME: Reduce pressure and reopen the conversation.

Part 3: Follow-Up, Survey & Reactivation Scripts

7. Reminder Follow-Up

SCRIPT: Just a quick reminder, [Name]. You had shown interest in [service/solution]. Should I send the demo link again or help you schedule a short call?

WHEN TO USE: When a lead has gone silent after initial interest.

BEST OUTCOME: Give two easy options instead of pushing.

8. Feedback / Survey Script

SCRIPT: Hi [Name], we are improving our service and would love quick feedback. On a scale of 1 to 5, how useful was the information/demo you received?

WHEN TO USE: After demo, consultation, service, or campaign interaction.

BEST OUTCOME: Collect feedback and identify hot leads or issues.

9. Reactivation Script

SCRIPT: Hi [Name], we spoke earlier about [topic]. I wanted to check if this is still a priority or if we should reconnect later. Happy to help either way.

WHEN TO USE: For old leads, past inquiries, or dormant contacts.

BEST OUTCOME: Restart conversation without sounding desperate.

Where These Scripts Can Be Used

Industry	Best Use Case	Best CTA
Real estate	Project inquiry, site visit booking, missed-call callback	Book a site visit
Education / coaching	Course inquiry, demo class, fee clarification	Get the course details
Local services	Quotation request, appointment, callback	Request a quote
Agencies / B2B	Discovery call, proposal, demo	Book a short demo
Salons / fitness	Appointment, package inquiry, reminders	Book a slot
Finance / insurance	Inquiry capture, document checklist, callback	Speak to an advisor
E-commerce / D2C	Order support, return query, feedback	Get support / callback

What airecep.tech can automate

- Inbound call answering and lead capture
- Missed-call callback
- Demo or appointment request support
- Reminder calls and follow-ups
- Surveys and feedback calls
- Lead qualification and call summaries
- Human handoff for important or complex cases

Want to respond faster to leads, missed calls, DMs, website inquiries, and follow-ups? We created a free script pack you can use in any business to capture details, qualify interest, book demos or appointments, and follow up professionally. Fill the form and get the free PDF.

Form fields to capture

Name | Business Name | Email | Phone | Industry | Main challenge | Preferred contact method

Thank-you page message

Your free script pack is ready. Check your email. If you want this call handling and follow-up process automated for your business, you can also book a short demo with airecep.tech.

Internal WhatsApp message for your team

Copyable WhatsApp message

Hi Team, please use this universal free gift for social media lead capture. This is not clinic-specific. It is a general business sales script pack for any company that gets leads, calls, DMs, website forms, missed calls, demo requests, surveys, reminders, and follow-ups.

The goal is to give prospects something valuable first, collect their name/email/phone/industry through a form, then follow up with a demo link for airecep.tech. Please position this as a practical script pack, not a hard sales pitch.

Final Checklist Before Sending This Gift

Must Have	Why It Matters
Clear form before download	Captures email and phone before giving the PDF
Thank-you page	Confirms download and gives next action
Demo link in follow-up email	Turns gift download into a demo opportunity
UTM tracking / pixel	Tracks which social media campaign generated the lead
Short follow-up sequence	Keeps the lead warm after download
Industry field in the form	Allows different follow-up messaging by industry

Final CTA: Use the scripts manually - or let airecep.tech automate the call, follow-up, survey, and qualification workflow for your business.
